

Aadhaar Enabled Biometric Attendance System (AEBAS)

1. RD SERVICES NOTIFICATION :

Kindly get your devices RD service updated through Vendor, if not updated otherwise you face the problem in activation of Device or punching of attendance as UIDAI will not allow marking attendance thru public device.

UIDAI Guidelines:-

UIDAI Requires that only "registered devices" should be used by all Authentication Eco partners.

“Registered Devices” refer to devices that are registered with Aadhaar system for encryption key management.

Aadhaar authentication server can individually identify and validate these devices and manage encryption keys on each registered device.

Device identification – every physical sensor device having a unique identifier allowing device authentication, traceability, analytics, and fraud management.

Eliminating use of stored biometrics – every biometric record is processed and encrypted within the secure zone eliminating transmission of unencrypted biometrics from sensor to host machine.

All biometric devices used for authentication shall be certified as required and as per the specifications issued, by the Authority from time to time for this purpose.

If your device is not updated in RD services till date kindly visit below link and update your Device.

If your device hardware is not compatible according to RD services in this situation kindly upgrade your device immediately.

While procuring new device, make sure your that device is :

- **UIDAI (API 2.0) with LO and RD compliant.**
- NIC AEBAS Compliant wall mount tablet.
- UIDAI Approved
- Android 4.4. & Android 5.1 or above
- BAS Application Version 3.342 & above and
- STQC approved FPS integrated Tablet

Any Query related to RD services kindly WhatsApp to Mr. Ritesh Chaurasia on +91-9643402065 and email at aebasdevice-skill@gov.in.
